DATA ANALYTICS + TECHNOLOGY EXPERIENCE

Analytics Intern, Hamptons Collegiate Baseball League, Southampton, NY — Jun. 2026–Jul. 2026
- Built the most comprehensive database in league history for MLB funded data analytics program, deploying an R Shiny app that gave stakeholders validated data, attracting over 100+ visitors.
- Operated complex baseball technologies like league's FlightScope X3B pitch-tracking radar at 35+ HCBL games in its first season as the league's data collection system, tagging over 6,000 pitches, troubleshooting calibration and validating coordinates.
- Built working relationships with pitchers, pitching coaches, league stakeholders, scouts, and umpires, fielding ad hoc analytical requests and translating FlightScope data into clear, actionable insights on pitch movement, classification, and strike-zone accuracy.

Assistant Women's Basketball Video Coordinator, Temple University, Philadelphia, PA — Nov. 2025–Present
- Live-code practices and games in Sportscode using custom hotkeys, delivering organized, tagged film that lets assistant coaches generate more efficient and advanced scouting reports.
- Manage film and scouting workflows across Hudl, Sportscode, and Synergy.

Men's Basketball Data Analyst, Temple University, Philadelphia, PA — Sept. 2026–Present
- Built proprietary transfer portal dashboards and player projection models in R that outperformed industry-standard portal rankings in all back-tested classes that staff uses to guide portal strategy.
- Researched college basketball coach's-challenge strategy and presented the findings to the Temple coaching staff, building a challenge-strategy calculator that recommends when to deploy a challenge.
- Field ad hoc questions from the coaching staff, explore and analyze data, and present interesting findings to coaches.

Senior Research Associate, EAB, Washington, D.C. — Aug. 2023–Jun. 2025
- Examined regional and national labor market to surface market insights and data visualizations, aggregating findings into research reports delivered to partner institutions to improve academic curricula strategy.
- Ran independent statistical analyses of enrollment and market data in SPSS, using methods of analysis to track student groups over time and forecasting to project future program demand.

RELEVANT SPORT EXPERIENCE

Graduate Assistant, Tennis Operations, Temple University, Villanova, PA — Aug. 2025–Present
- Independently manage daily operations for two NCAA Division I programs, overseeing match preparation, travel logistics, and NCAA compliance.
- Authors all content for monthly alumni newsletters and supports alumni fundraising initiatives.

Photography Intern, Major League Baseball, New York City, NY — Jun. 2022–Oct. 2022
- Provided support during the MLB Draft, locating, processing, and editing pictures for 1,500+ draft prospects for broadcast coverage, MLB.com publication, and club distribution.

Runner-up at Villanova Sports Law Baseball Filing Day Competition, Philadelphia, PA — Oct. 2026
- Competed as only non-law student in the entire competition simulating baseball contract settlements between team and player consisting of 50+ participants and 14 teams.

PROFESSIONAL DEVELOPMENT

MLB Take the Field 2025, Orlando, FL — Dec. 2025
- Attended panels and breakout sessions led by MLB Front Office members in baseball operations, R&D, scouting, coaching, and player development.

Philadelphia Sports Analytics Case Competition, Philadelphia, PA — Nov 2025
- Four-person team won room at analytics competition, examining explosive play creation in college football.

EDUCATION

Temple University, Philadelphia, PA — Expected Graduation May 2027
Master of Science in Sport Business, Concentration in Analytics

Dickinson College, Carlisle, PA — May 2022
Bachelor of Arts in Sociology and Film & Media Studies
